TECHNICAL SKILLS

AI & Machine Learning

- LLMs
- AI Agents
- PyTorch
- TensorFlow
- scikit-learn
- Predictive modeling
- Fine-tuning

LLM Platforms

- Claude
- OpenAI
- Gemini
- Llama
- Mistral
- Hugging Face

Data

- Python
- pandas
- NumPy
- PostgreSQL
- Supabase
- Redis

Full Stack & Cloud

- Next.js
- React
- TypeScript
- Node.js
- Google Cloud
- Docker
- Vercel
- Cloudflare

Automation & Orchestration

- LangChain
- n8n
- Make
- Zapier

LANGUAGES

- Spanish — Native
- English — Professional

INTERESTS

- Quantum physics & quantum computing
- Applied AI research
- Autonomous & agentic systems
- Biblical history & archaeology

PROFESSIONAL SUMMARY

AI Engineer, Full Stack Developer and Data Scientist who turns data and artificial intelligence into intelligent decisions. Specialized in designing and shipping **AI agents that reason and execute tasks**, LLM and copilot integration, predictive modeling and end-to-end process automation. I combine a solid foundation in data science and full-stack development with a business-oriented mindset focused on measurable results. Passionate about **quantum physics** and quantum computing as the next frontier of AI.

EXPERIENCE

- Founder · AI Engineer & Full Stack Developer** Present
Xentris Tech (Xentris LLC — Merrick, NY / Barranquilla)
Technology firm focused on custom software, cloud infrastructure, AI solutions and digital transformation consulting. I lead the development of AI products, process automation and full-stack application architecture for B2B clients.
Next.js · Python · Generative AI · Google Cloud · Docker · n8n
- Founder · AI Studio** Present
Neona.tech
Artificial intelligence studio: AI products, "data that decides" and SEO for the new era of generative search (GEO/AEO). Design of data, analytics and optimization solutions powered by large language models.
LangChain · Databricks · Perplexity · ElevenLabs · Replicate
- Developer & Process Automation** Project
Yota Montacargas (Forklifts)
Digitization and process automation for a materials-handling equipment (forklift) sales and rental company, integrating workflows and commercial tools.
- Web Development & E-commerce** Project
Tecnonacho.com
Technology e-commerce platform (10,000+ products) in Barranquilla: development and optimization on WordPress/WooCommerce, integrations and support for the online sales channel.

FEATURED PROJECTS

- Platim.co**
B2B industrial safety equipment platform.
- DominioGPT**
AI-powered domain name generator.
- Trading Pro GPT**
Market analysis and trading assistant.
- Dashboards & Bots**
Custom intelligent dashboards and conversational bots.

AREAS OF EXPERTISE

- AI Engineering**
Autonomous agents, copilot integration and custom model training.
- Data Science**
Analytics, predictive modeling and data-driven decision making.
- Automation**
Process orchestration with LangChain, n8n, Make and APIs.
- Full Stack Development**
Modern web applications and end-to-end API integration.

CERTIFICATIONS & EDUCATION

- Google Cloud** — Verified credentials
- TensorFlow** — Machine Learning
- Coursera** — AI & Data Science
- Platzi** — Development & Data
- Credly** — Verified badges
- edX · IsraelX** — Biblical Archaeology (2023)
